Welcome to the first issue of our online Newsletter!
Future issues will have information about the company, personnel, tips for lawn and garden and more.

The *News and Information* section will have information from outside and government sources like watering restrictions, news releases, etc...

Please add newsletter@bestyard.com to your address list to avoid this being identified as spam. If you wish to change your address or cancel please send an email to newsletter@bestyard.com with your request.

Feel free to forward this newsletter to your friends.

TURF

BestYard.com has introduced two programs this year, BestCare Organic and Bio Plus. Both will help increase beneficial microbial activity in the soil. Microbial activity creates a healthier soil, better root growth, and a stronger lawn.

BestCare Organic This program uses an organic fertilizer but is identical to our original BestCare program in every other way.

Bio Plus is a natural add-on to our fertilization programs to increase microbial activity in the soil. Increased microbial activity increases the health of the soil by loosening the soil, increasing water/air penetration and circulation. Microbes also break down fertilizer into components usable by the turf and help breakdown pesticides and toxins in the soil. Healthy soil means healthy turf!

GARDEN

Spring Clean Up time is here. Get your gardens spiffed up and looking good! If you haven't scheduled a clean up yet, call or email us to get on the schedule.

Pruning is important to do now while plants are dormant. We can prune your shrubs, ornamentals and trees under 10' tall.

Mulch often gets blown or washed away during the winter. If your mulch needs replenishing, let us know and we'll help you get things done.

Landscape Design is available from BestYard. Call or email for further information.

Are you a Do It Yourself type person?

Landscape Consultations are available by appointment. We can customize your landscape to suit your personal needs and tastes.

MOWING

Are you thinking about mowing your lawn? Of course not, but that time will be here soon so call or email us today!

Most professionals recommend aerating a lawn twice a year, once in the spring and again in the fall. With our clay soil, this is excellent advice. Aerations help loosen the soil. They increase water penetration and air circulation in the soil. Spring aerations start soon so get on the schedule today!

LIGHTS

Lights aren't just for the holidays anymore! We set up decorative lights for any celebration or event. Spice up your wedding and reception, anniversary party, sports gathering! You name it, we light it!

Let us know what we can do to brighten up your special occasion!

Landscape Lighting Accent your house, patios, pool, and gardens with this touch of elegance.

IRRIGATION

Has your sprinkler system been checked and adjusted recently? If not, schedule with BestYard today. Our highly trained technicians will start up the water, check for leaks, check zones and heads for proper coverage and operation, check and adjust the clock. Need a sprinkler system installed? We do that also. Call or email to schedule your start up or free installation estimate today!

ARE YOU A BRONCOS FAN?

Get ready to show your support for the 2008 season! We have a limited number of Bronco Lawn lights still available. Call or email us for a picture and dimensions. They sell for \$120 normally but our preseason price is **ONLY \$99!** Get yours today!
